The Zachary Foundation was established in July 2004 to engage in fundraising for physicians and organizations researching Mitochondrial Disease. Michael and Rhonda Friedberg, parents of Zachary Friedberg, founded the organization.

Michael is a Fellow of the American College of Healthcare Executives and has been a hlny member since 1997. Zachary is affected by a rare form of Mitochondrial Disease. This disease affects his body's ability to convert sugar into energy and damages the cells of the heart, skeletal muscles, brain, liver, kidney and respiratory systems. Zachary's life expectancy is shortened due to the expected progression of the disease. Treatment consists of attempting to alleviate as many of the symptoms as possible and slowing down the progression of the disease through a special diet, but there is NO CURE for Mitochondrial Disease – YET. It is the goal of The Zachary Foundation to raise money and awareness of the disease to aid in finding a cure.

The Zachary Foundation is a 501(c)(3) not for profit corporation as defined by the Internal Revenue Service. Tax ID #20-1416860. All contributions are tax deductible as allowed by law.

Paul F. Maguire, FACHE is an Administrator at Flushing Hospital Medical Center, a 325-bed community hospital located in Queens, New York, and an affiliate of the MediSys Health Network.
