The Zachary Foundation was established in July 2004 to engage in fundraising for physicians and organizations researching Mitochondrial Disease. Michael and Rhonda Friedberg, parents of Zachary Friedberg, founded the organization.

Michael is a Fellow of the American College of Healthcare Executives and has been a hlny member since 1997. Zachary is affected by a rare form of Mitochondrial Disease. This disease affects his body's ability to convert sugar into energy and damages the cells of the heart, skeletal muscles, brain, liver, kidney and respiratory systems. Zachary's life expectancy is shortened due to the expected progression of the disease. Treatment consists of attempting to alleviate as many of the symptoms as possible and slowing down the progression of the disease through a special diet, but there is NO CURE for Mitochondrial Disease – YET. It is the goal of The Zachary Foundation to raise money and awareness of the disease to aid in finding a cure.

The Zachary Foundation is a 501(c)(3) not for profit corporation as defined by the Internal Revenue Service. Tax ID #20-1416860. All contributions are tax deductible as allowed by law.

This year marks the 10th year of this outing to benefit the Zachary Foundation.

Albert Einstein once said, "Only a life lived for others is a life worthwhile." Our honorees this year define this quotation. Andy, Adam and Jim are the creators, supporters and tireless advocates for this event. It is the commitment of these three individuals that has been essential to our success.

Their gifts to Zachary and children like him who suffer from Mitochondrial Disease have never been given for recognition or personal gain. My family and the entire Mitochondrial Disease community are forever in their debt.
