Sponsor The Zachary Foundation Fifth Annual Walk/Run for Mitochondrial Disease Research

Announcing the Fifth Annual Zachary Foundation Walk/Run, Sunday, October 18, 2009, 9:00 AM to 12:00 PM, at the Marlboro Township Recreation Center, 1996 Recreation Way Marlboro, New Jersey 07746.

For the past four years, The Zachary Foundation has held it's annual Walk/Run to support Mitochondrial Disease Research. In each of these years over 500 local residents showed their support for the fight against this devastating disease.

Show your commitment to the community by becoming a sponsor for this heartwarming cause. The days events include a 5K run, 1 Mile Walk/Run, raffle prize drawings, kid's games, face painting and more.

The event has received news coverage in the Asbury Park Press as well as the News Transcript. Our web site, www.thezacharyfoundation.org, received over 1,000 hits during the month leading up to the event.

Don't miss out on the opportunity to sponsor this year's event and reach this vast local audience as well as helping a great cause.

The Friedberg's with Douglas Kerr, MD, Ph.D.

WHAT IS MITOCHONDRIAL DISEASE?

The mitochondria are the power plants in every cell, in every person's body. In people with mitochondrial disease, the mitochondria are not turning food into much needed energy to fuel the organs or muscles in the body. The end result can often mean a severe failure of major organs, muscle groups and whole body systems. Life is compromised, altered or even ended. There is no proven treatment. There is no cure.

Pyruvate Dehydrogenase Deficiency is a rare form of mitochondrial disease whereby the body cannot convert sugar into energy. Imagine your child's birthday party without birthday cake or goody bags. Imagine taking your child out on Halloween and collecting candy, which would be like him/her eating poison. There are no known cases of this disease where the affected person has lived past twenty. Help us give Zachary a chance to beat that mark.

Fifth Annual Walk/Run Sponsor Application
