The Zachary Foundation was established in July 2004 to engage in fundraising for physicians and organizations researching Mitochondrial Disease. Michael and Rhonda Friedberg, parents of Zachary Friedberg, founded the organization.

Michael is a Fellow of the American College of Healthcare Executives and has been a HLNy member since 1997. Zachary is affected by a rare form of Mitochondrial Disease. This disease affects his body's ability to convert sugar into energy and damages the cells of the heart, skeletal muscles, brain, liver, kidney and respiratory systems.
